A Statewide System of Inservice Training Program  
Illinois Law Enforcement Training and Standards Board

## PRESENTS

### BASIC TACTICAL MEDICAL INSTRUCTOR TRAINING PROGRAM

**Course Vender is:** Federal Law Enforcement Training Center (FLETC)

**COURSE DESCRIPTION:** The Basic Tactical Medical Instructor Training Program (BTMITP) is a highly intense training program requiring a physical demand on the student and consists of lecture, labs and skill practice. The law enforcement officer will gain knowledge and skills necessary to mitigate the loss of their life or the life of another while in a dynamic environment. The skills will address treating life threatening injuries in an austere environment with limited equipment, lack of medically trained personnel and prolonged time to evacuation.

Tactical Medical is a systematic approach to dealing with casualties in a tactical environment. It is strongly influenced by the model used by the Department of Defense called Tactical Combat Casualty Care (TCCC). As the name implies, TCCC incorporates tactical problem solving into any situation in which casualties are incurred from an armed, hostile opponent. The TCCC system focuses on saving "preventable deaths" while achieving three primary goals: Treat the Casualty, Prevent Additional Casualties and Continue the Mission.

Upon graduation from the BTMITP, students will be able to deliver training in the basic, civilianized tenets of TCCC life-saving skills addressed in the DHS Care Under Fire Education Standards.

**Attire for Class:** Due to the physical nature of this program, (Day 2 and 3) it is possible for clothing to get torn, stained with artificial moulage/blood, or damaged. Please wear clothing appropriate for this type of training, while still professional for the law enforcement training environment (i.e., BDU pants, t-shirt, etc.)

Do not wear shorts, clothing with inappropriate logos, or offensive language. Footwear is very important due to the physical nature of the program. This includes running, crawling, kneeling, stepping, and jumping on dirt and rocks. Closed toe shoes are mandatory, such as boots or similar footwear. No flip flops, sandals, open toe shoes, heels, or dress shoes will be allowed.

Bring a water bottle or similar way to stay hydrated. You may also need sunscreen, insect repellent, long sleeve shirts, and other gear necessary for the expected weather conditions.

## This is a Dual Registration Class

**ALL ATTENDEES MUST REGISTER WITH MTTU IV AT [Basic Tactical Medical Instructor](#)**  
**ALL ATTENDEES MUST ALSO REGISTER WITH [FLETC](#) BY CLICKING ON THE FOLLOWING LINK AND COMPLETE THE FORM**

**[Register with FLETC for Tactical Medical Instructor Training](#)**
