A Statewide System of Inservice Training Program
Illinois Law Enforcement Training and Standards Board

PRESENTS

LEAD HOMICIDE INVESTIGATOR BY LLRMI

(40 HOUR)

COURSE DESCRIPTION:

This training module will provide the attendee with the skills and competency to conduct complete and thorough homicide investigations with prosecutorial merit. Additionally, the attendee will be provided with the skills to recognize and handle other types of death investigations, bringing them to a successful conclusion. The class will cover three basic steps in all homicide investigations: Crime Scene, Follow-up, and Case Courtroom Presentation. The course will provide participants with in-depth and step-by-step processes of handling of high-profile major incidents most affecting communities, including, but not limited to, investigating cases of multiple homicides, and crimes of violence against vulnerable populations. Actual case studies will be presented to illustrate the points and practices to emphasize the relevance to successfully resolving cases.

A Statewide System of Inservice Training Program
Illinois Law Enforcement Training and Standards Board

COURSE PURPOSE

This program has been approved by the Illinois Law Enforcement Training & Standards Board to meet the 40-hour course requirements of Illinois Public Act 96-111 (SB 3491) for a training program in death and homicide investigation for law enforcement officers of local government agencies. Illinois Officers completing this training program will be issued a certificate by the State and may be assigned as lead investigators in such investigations.

This comprehensive seminar for lead homicide investigators provides instruction in investigating and prosecuting death cases from the start of the investigation through evidence collection, autopsy, suspect interviews, press conferences, trial testimony and ultimately conviction. It is purposely designed to provide expert "in-the-field" instruction from the "Side of the Badge to the Side of the Scalpel to the Side of the Gavel."

From rookie first responders all the way to the seasoned investigator, this course will provide a wealth of knowledge and information. Lead investigators develop a sense of what their ultimate objective and goals are within the crime scene, and how to recognize what forensic application would be appropriate based on the evaluation of each scene.
