# EFFECTIVE CRIME SCENE REPORTING: DOCUMENTATION AND DEMONSTRATIVES

### Course Description:

This one-day fundamental seminar is designed for sworn personnel involved in evidence recovery and preservation efforts. Presented material and practical exercises are designed to strengthen your everyday and forensic reporting skills. Crime scene documentation demands an elevated and often technical level of detail that goes beyond standard field reporting needs of statutory and Uniform Crime Reporting requirements. Forensic/Scientific focused documentation can counter memory recall challenges experienced by even the most seasoned crime scene investigators. Accurate reporting offsets media-fueled CSI effects which adversely impacts ensuing and often time-delayed trials.
