A Statewide System of Inservice Training Program
Illinois Law Enforcement Training and Standards Board

PRESENTS

This 40-hour program is designed to provide officers with specialized training on dealing with individuals in the community who have a mental illness or other behavioral disability. CIT officers are trained as resource specialists who can provide immediate response to calls involving a mental health crisis. The "team" concept refers to law enforcement involvement with stakeholder agencies, as well as interagency mutual assistance when appropriate.

During the week, students will participate in a variety of valuable exercises that will simulate auditory and 3-D visual hallucinations that individuals with a mental illness might experience. The program will also provide officers with a unique opportunity to interact with individuals who have a mental illness and their family members (primary and secondary consumers).

An essential part of the CIT course is scenario-based skills training. Officers are challenged with realistic scenarios portrayed by professional actors. Scenarios may include a suicide intervention, de-escalating a violent situation, or responding to a call involving an individual experiencing paranoia. All scenarios are facilitated and evaluated by certified CIT officers.

Topics include:

Signs and Symptoms of Mental Illness	Medical Conditions & Psychotropic Medications
Verbal De-escalation and Tactical Response	Child and Adolescent Disorders
Autism & Intellectual & Dev Disabilities	Risk Assessment and Crisis Intervention Skills
Co-Occurring Disorders Substance Abuse	Scenario-Based Role & Play
Geriatric Issues and Considerations	LWEN Response & Legal Issues
Community Resources	Returning Veterans and PTSD
