### EVIDENCE BASED INTERVIEW AND INTERROGATION—3 DAYS

The CTK Group's Evidenced Based Interview and Interrogation course is a comprehensive training designed to equip today's law enforcement officer in eliciting information from victims, witnesses, and suspects. Our goal is to master research-based skills for interview and interrogation, while taking every legal advantage allowed by the courts. This course clearly navigates the legal landscape of interrogation beyond any training officers have previously received, creates critical advantages by developing cognitive interviewing skills, and develops the art of persuasion skills within interrogation. Our unique baseball diamond schema provides an actionable game plan to use for every interview and interrogation. This course incorporates a video-based pre/post-test, active role-playing and practice, and actual criminal interrogation videos to supplement the 218-page manual that each attendee receives. Make no mistake...this is no course for recruits. Twenty-year veterans have taken this course and have been amazed at the information they learned in the three days.

The CTK Group specializes in criminal interview and interrogation training for law enforcement, fire investigators, and correctional personnel. Always have, always will. This training focuses on legally sound, research-based techniques for eliciting information from criminal defendants. We collaborate with progressive law enforcement agencies who are interested in changing the stagnant culture of interview and interrogation.
