Basic Guidelines for Officer-Worn Body Cameras *Revised: December 2024*

Under the Law Enforcement Officer-Worn Body Camera Act, each agency which employs the use of officer-worn body cameras must adopt a written policy based upon the following guidelines. At a minimum, the agency policies must address the following and be compliant with the terms of 50 ILCS 706/10-20:

A. Operation:

(1) *If an officer is assigned to wear a body-worn camera, it must be turned on at all times when the officer is:*

(a) on-duty,

(b) visibly wearing:

1. any officially authorized uniform designated by a law enforcement agency, or,
2. articles of clothing, a badge, tactical gear, gun belt, a patch, or other insignia that he or she is a law enforcement officer acting in the course of his or her duties

(c) and is:

1. responding to calls for service, or
2. engaged in any law enforcement-related encounter or activity:
 - (i.) This includes, but is not limited to, traffic stops, pedestrian stops, arrests, searches, interrogations, investigations, pursuits, crowd control, traffic control, non-community caretaking interactions with an individual while on patrol, or any other instance in which the officer is enforcing the laws of the municipality, county, or State, but
 - (ii.) This does not include when the officer is completing paperwork alone, is participating in training in a classroom setting, or is only in the presence of only another law enforcement officer or officers.

(2) The officer must provide notice of recording, *verbal or otherwise*, to any person if the person has a reasonable expectation of privacy and proof of notice must be evident in the recording. If exigent circumstances exist which prevent the officer from providing notice, notice must be provided as soon as practicable.

(3) If exigent circumstances exist which prevent the camera from being turned on, the camera must be turned on as soon as practicable.

(4) Officer-worn body cameras may be turned off when the officer is inside of a patrol car which is equipped with a functioning in-car camera; however, the officer must turn on the camera upon exiting the patrol vehicle for law enforcement-related encounters. Officer-worn body cameras may be turned off when the officer is inside a correctional facility or courthouse which is equipped with a functioning camera system.

(5) Cameras must be turned off when:

(a) the victim of a crime requests that the camera be turned off, and unless impractical or impossible, that request is made on the recording;

(b) a witness of a crime or a community member who wishes to report a crime requests that the camera be turned off, and unless impractical or impossible that request is made on the recording; ~~or~~

(c) the officer is interacting with a confidential informant used by the law enforcement agency; ~~or~~

(d) an officer of the Department of Revenue enters a Department of Revenue facility or conducts an interview during which return information will be discussed or visible.

(6) An officer may continue to record or resume recording a victim or a witness, if exigent circumstances exist, or if the officer has reasonable articulable suspicion that a victim or witness, or confidential informant has committed or is in the process of committing a crime. Under these circumstances, and unless impractical or impossible, the officer must indicate on the recording the reason for continuing to record despite the request of the victim or witness.

(7) Cameras may be turned off when the officer is engaged in community caretaking functions. *This applies to any task undertaken by a law enforcement officer in which the officer is performing an articulable act unrelated to the investigation of a crime. "Community caretaking function" includes, but is not limited to, participating in town halls or other community outreach, helping a child find his or her parents, providing death notifications, and performing in-home or hospital well-being checks on the sick, elderly, or persons presumed missing.* "Community caretaking function" excludes law enforcement-related encounters or activities.

However, the camera must be turned on when the officer has reason to believe that the person on whose behalf the officer is performing a community caretaking function has committed or is in the process of committing a crime. If exigent circumstances exist which prevent the camera from being turned on, the camera must be turned on as soon as practicable.

B. Recording Capabilities:

(1) Cameras must be equipped with pre-event recording, capable of recording at least the 30 seconds prior to camera activation, unless the officer-worn body camera was purchased and acquired by the law enforcement agency prior to July 1, 2015.

(2) Cameras must be capable of recording for a period of 10 hours or more, unless the officer-worn body camera was purchased and acquired by the law enforcement agency prior to July 1, 2015.

C. Review:

~~For the purposes of redaction, labeling, or duplicating recordings, access to camera recordings shall be restricted to only those personnel responsible for those purposes. The recording officer and his or her supervisor may access and review recordings prior to completing incident reports or other documentation, provided that the officer or his or her supervisor discloses that fact in the report or documentation.~~

(1) For the purposes of redaction or duplicating recordings, access to camera recordings shall be restricted to only those personnel responsible for those purposes. The recording officer or his or her supervisor may not redact, duplicate, or otherwise alter the recording officer's camera

recordings. Except as otherwise provided in this Section, the recording officer and his or her supervisor may access and review recordings prior to completing incident reports or other documentation, provided that the supervisor discloses that fact in the report or documentation.

(2) A law enforcement officer shall not have access to or review his or her body-worn camera recordings or the body-worn camera recordings of another officer prior to completing incident reports or other documentation when the officer:

(a) has been involved in or is a witness to an officer-involved shooting, use of deadly force incident, or use of force incidents resulting in great bodily harm;

(b) is ordered to write a report in response to or during the investigation of a misconduct complaint against the officer.

(3) If the officer subject to subparagraph (i) prepares a report, any report shall be prepared without viewing body-worn camera recordings, and subject to supervisor's approval, officers may file amendatory reports after viewing body-worn camera recordings. Supplemental reports under this provision shall also contain documentation regarding access to the video footage.

(4) The recording officer's assigned field training officer may access and review recordings for training purposes. Any detective or investigator directly involved in the investigation of a matter may access and review recordings which pertain to that investigation but may not have access to delete or alter such recordings.

D. Retention:

(1) Recordings made on officer-worn cameras must be retained by the law enforcement agency or by the camera vendor used by the agency, on a recording medium for a period of 90 days.

(a) Under no circumstances shall any recording made with an officer-worn body camera be altered, erased, or destroyed prior to the expiration of the 90-day storage period.

~~*(b) If any data is altered, erased, or destroyed prior to the expiration of the 90-day storage period, the managing officer must complete an accidental deletion report indicating the name of the individuals involved, the dates of the recording, review and or deletion, the reason for the deletion, and any corrective actions taken as a result. This report must be reviewed and verified by a supervisor and the chief, sheriff or chief administrator. Any such reports must be included in the annual report provided to the Board.*~~

(b) In the event any recording made with an officer-worn body camera is altered, erased, or destroyed prior to the expiration of the 90-day storage period, the law enforcement agency shall maintain, for a period of one year, a written record including (i) the name of the individual who made such alteration, erasure, or destruction, and (ii) the reason for any such alteration, erasure, or destruction.

(c) Following the 90-day storage period, any and all recordings made with an officer-worn body camera must be destroyed, unless any encounter captured on the recording has been flagged. An encounter is deemed to be flagged when:

- (i) a formal or informal complaint has been filed;
- (ii) the officer discharged his or her firearm or used force during the encounter;
- (iii) death or great bodily harm occurred to any person in the recording;
- (iv) the encounter resulted in a detention or an arrest, excluding traffic stops which resulted in only a minor traffic offense or business offense;
- (v) the officer is the subject of an internal investigation or otherwise being investigated for possible misconduct;

- (vi) the supervisor of the officer, prosecutor, defendant, or court determines that the encounter has evidentiary value in a criminal prosecution; or
- (vii) the recording officer requests that the video be flagged for official purposes related to his or her official duties or believes it may have evidentiary value in a criminal prosecution.

(d) Under no circumstances shall any recording made with an officer-worn body camera relating to a flagged encounter be altered or destroyed prior to 2 years after the recording was flagged. If the flagged recording was used in a criminal, civil, or administrative proceeding, the recording shall not be destroyed except upon a final disposition and order from the court.

(2) Following the 90-day storage period, recordings may be retained if a supervisor at the law enforcement agency designates the recording for training purposes. If the recording is designated for training purposes, the recordings may be viewed by officers, in the presence of a supervisor or training instructor, for the purposes of instruction, training, or ensuring compliance with agency policies.

(3) Nothing in this Act prohibits law enforcement agencies from labeling officer-worn body camera video within the recording medium; provided that the labeling does not alter the actual recording of the incident captured on the officer-worn body camera. The labels, titles, and tags shall not be construed as altering the officer-worn body camera video in any way.

E. Purpose

(1) Recordings shall not be used to discipline law enforcement officers unless:

- (a) a formal or informal complaint of misconduct has been made;
- (b) a use of force incident has occurred;
- (c) the encounter on the recording could result in a formal investigation under the Uniform Peace Officers' Disciplinary Act; or
- (d) as corroboration of other evidence of misconduct.

(2) Nothing in this section shall be construed to limit or prohibit a law enforcement officer from being subject to an action that does not amount to discipline.

F. Care and Maintenance:

(1) The law enforcement agency shall ensure proper care and maintenance of officer-worn body cameras. Upon becoming aware, officers must as soon as practical document and notify the appropriate supervisor of any technical difficulties, failures, or problems with the officer-worn body camera or associated equipment.

(2) Upon receiving notice, the appropriate supervisor shall make every reasonable effort to correct and repair any of the officer-worn body camera equipment.

G. Public Recording:

(1) No officer may hinder or prohibit any person who is not a law enforcement officer, from recording a law enforcement officer in the performance of his or her duties in a public place or when the officer has no reasonable expectation of privacy.

(2) The law enforcement agency's written policy shall indicate the potential criminal penalties, as well as any departmental discipline, which may result from unlawful confiscation or destruction of the recording medium of a person who is not a law enforcement officer.

(3) However, an officer may take reasonable action to maintain safety and control, secure crime scenes and accident sites, protect the integrity and confidentiality of investigations, and protect the public safety and order.

H. Reporting

~~(1) Each law enforcement agency that employs the use of officer-worn body cameras must provide an annual report to the Board, on or before May 1 of the year.~~

~~(2) The report shall include:~~

~~(a) a brief overview of the makeup of the agency, including the number of officers utilizing officer-worn body cameras;~~

~~(b) the number of officer-worn body cameras utilized by the law enforcement agency;~~

~~(c) any technical issues with the equipment and how those issues were remedied;~~

~~(d) a brief description of the review process used by supervisors within the law enforcement agency;~~

~~(e) for each recording used in prosecutions of conservation, criminal, or traffic offenses or municipal ordinance violations:~~

~~(i) the time, date, location, and precinct of the incident;~~

~~(ii) the offense charged and the date charges were filed; and~~

~~(f) any other information relevant to the administration of the program.~~

~~(3) On or before July 30 of each year, the Board must analyze the law enforcement agency reports and provide an annual report to the General Assembly and the Governor.~~
